

Online Survey Instructions

Michigan Master Logger:

Your help in tracking the required information is greatly appreciated and your responses will be kept confidential.

Please use the provided QR code or follow the web address in a web browser.

<https://www.surveymonkey.com/r/QTCR8KX>

For each sale you or your company has completed (with a water component) since your previous audit or since your previous survey, please include the sale identifier information (Sale Name, Sale Owner Name, Sale Location). This information is important for tracking the number of miles of rural riparian forest treated and also to prevent duplicate entries. If you have more than one sale to report, please include the following sales in the appropriate areas (Sale 2, Sale 3, etc.).

Example of sale identifier information:

Sale Name: Red Pine Ridge

Sale Owner Name: Tom Smith

Sale Location: 1234 Hwy. 2 Bark River, MI 49807. (Sale locations can be reported as sale address, fire number, or waypoint.)

Once you have completed the sale identifier information at the beginning of the survey, please answer Yes or No to the questions relating to installation of BMPs including Roads, Streams and Stream Crossings, RMZs and Wetlands, Landings, Skidding/Forwarding, Spills, and Pesticide Application.

If questions do not apply to the sale, please answer “No” to proceed.

We understand your time is valuable, and we greatly appreciate your efforts in completing this project. Your data points will help us demonstrate the collective impact of the Master Logger community on water quality throughout Michigan’s forested landscapes.

If you have any questions, please don’t hesitate to contact us. We’re here to support you every step of the way.

Thank you again for your leadership in responsible forestry.
